Career Objective

Enthusiastic and detail-oriented B.Tech Computer Science student with a strong grasp of software development, problem-solving. Proficient in Python, Java, C++, and SQL, with hands-on experience in web development, database management, and cloud computing. A fast learner with excellent analytical skills, eager to apply technical knowledge in a real-world environment. Seeking an internship or entry-level role to contribute and grow in a dynamic tech-driven organization."

Technical Skills

- Programming Languages: Python, C, Java
 - Databases: MySQL, MongoDB
 - Technologies: web development
 - Soft Skills: Problem-Solving, Teamwork, Analytical Thinking
-

Education

- Malla Reddy Engineering College and Management Science (2023 - 2026)
Bachelor of Technology - Computer Science & Data Science (CGPA: 6.67)
 - Anurag Engineering College (2020 - 2023)
Diploma in Electronics & Communication Engineering (CGPA: 8.45)
 - SR High School (2019 - 2020) 10th SSC (CGPA: 9.8)
-

Projects

1. Climate change insight: Graphical data representation and analysis
 - Created graphical data visualizations to analyze climate change trends, highlighting key patterns and insights.
 - Utilized data analysis techniques to inform decision-making and support environmental sustainability initiatives.
 2. E-Commerce website
 - Developed an e-commerce website user-friendly interfaces.
 - Optimized for performance and scalability, ensuring a smooth shopping experience for users.
-

Certifications & Achievements

- HTML,CSS,JAVASCRIPT - Udemy
 - MySQL and Relational Databases – IBM Cognitive class
-

Languages Spoken

English, Telugu, Hindi

Hobbies & Interests

- Editing, 3D graphic designing
 - Listening to music for relaxation and inspiration
 - Spending quality time with friends and networking
-

About Me: I am a highly motivated and adaptable individual with a problem-solving mindset and a passion for technology-driven innovation. I am an overthinking person, I will think in all aspects to clear the problems, while my analytical thinking ensures effective problem-solving. I thrive in fast-paced environments, constantly learning and evolving to meet the latest industry standards.
